

Felix Benjamin Cenusa

Karlskrona, Sweden — +46 73 780 9450 — felixcenusa@gmail.com
linkedin.com/in/felixcenusa — github.com/FelixCenusa — felix.best

Founding & forward-deployed engineer who takes AI agents from on-site customer discovery to live production — shipped across 100+ dealership sites for four clients.

SKILLS

Languages: Python, Go, C++, JavaScript/TypeScript, SQL, HTML/CSS

Tools: FastAPI, Node.js, React, LiveKit, Playwright, Docker, Railway, AWS/GCP, MySQL, Git/GitHub, CI/CD

Areas: LLM / AI Voice & Chat Agents, Systems Integration, Distributed Systems, Backend & Full-Stack Dev, DevOps, Security

Fluently Spoken Languages: Swedish, English, Spanish, Romanian

EXPERIENCE

Revion, Inc.

Founding Engineer, Forward Deployed

Remote (Sweden)

Mar 2026 – Jul 2026

- Embedded on-site with four European dealer-group clients to ship production AI booking agents — voice (LiveKit), web chat, SMS, WhatsApp — live across **100+** dealership sites (service, sales & parts bookings).
- Engineered a Python integration gateway (FastAPI + Playwright) that drives a legacy IE11/SOAP dealer-management system with no public API; blue/green zero-downtime deploys on GCP VMs and Railway with CI/CD.
- Built full-stack observability & analytics (Next.js/React + FastAPI + PostgreSQL): call-volume, sentiment & revenue dashboards, transcript/session replays, and modular per-client KPI reporting with role-based permissions.
- Cut live booking latency from 9.2s to under 2s and ran the voice agents at ~1.7s median response time in production (300+ live calls); built a “net-zero” test harness that validates real bookings against live production and reverses them — zero side effects.

Ertzy AB

Intern → Junior Software Developer

Karlskrona, Sweden

Jun 2025 – Mar 2026

- Built internal systems & main pages. FastAPI, AWS EC2, Dash, React, more.

NKT (via BTH)

Intern, Team Lead — Software Engineering

Karlskrona, Sweden

Jan 2025 – Jun 2025

- Led & partook in a 6-member team; delivered a working prototype shaped by client feedback.

Blekinge Institute of Technology

Teaching Assistant — C++ / OOP

Karlskrona, Sweden

Sep 2024 – Jan 2025

- Mentored students in debugging, optimization, and core OOP concepts.

COMPETITIONS & ACHIEVEMENTS

[1st place](#) — Holly Tech CTF (Apr 2025)

[Top 20](#) — Lund University Programming Challenge (Apr 2025)

[Hackathons](#) — Mashup AI (graph-DB therapist AI), Chalmers (Jane Street sessions)

[Consistent Advent of Code participation](#) — Active Codeforces competitor

PROJECTS

MiniJava Compiler (C++) — Implemented symbol table and semantic analysis for a MiniJava-like compiler.

TimeToMove — Secure web app with Gmail login, file uploads, and admin tools (Node.js, MySQL, EJS).

Aristotle's Puzzle Solver (C++) — Optimized algorithm reducing runtime from hours to seconds.

Advent of Code 2024 (Python) — Complete challenge solutions with video walkthroughs.

EDUCATION

Blekinge Institute of Technology (BTH)

B.Sc. Software Engineering — Final year

Karlskrona, Sweden

Aug 2023 – Jun 2026

- Exchange term at **Newcastle University, School of Computing.**
